CORSETS help the figure you can satisfactorily test by letting us fit you. The unbroken length of line, the round youthful waist, the slender supple hips are chiefly a matter of corset art. FOR PRESIDENT,
WILLIAM HOWARD TAFT.

Socialism was decisively repudiated in the recent municipal elections in Milwaukee and in two Montana cities. This leaves Schenectady as the only city where socialistic experiments are being tried out.

Critics of the Underwood bill to tax incomes in excess of \$5,000 enjoyed by "persons, firms and co-partnerships with respect to the carrying on or doing business," raise the point that wealthy idlers or retired multi-millionaires would escape the impost on the ground that they are not doing business.

A bill is pending in Congress providing for a new Industrial Commission to inquire into the general condition of labor in the principal industries in the United States, the relations between employers and employees, methods for adjusting labor disputes, and other matters connected with the industrial situation.

According to the New York Tribune, the twelve countries having trade unions organizations have a total population of more than 347,000,000, but the total number of trades union members in them is only a trifle more than 10,000,000. In the United States they are only thirty in the thousand of population.

It strikes the American Economist as queer, while there are many people who regard the appearance of domestic manufacturers before a Congressional committee to defend their interests as immoral and demoralizing, the same people can discover no impropriety in foreign manufacturers and importers doing the same thing.

The testimony of an official of the Federal Sugar Refining Company of New York before the Senate Finance Committee developed the fact that the "sugar trust" wants free sugar. The witness admitted that the company which he represented "was paying for the free sugar propaganda and was a leading advocate of the measure." The witness also "agreed with the Republican members that enactment of the bill would wipe out the entire domestic production of sugar."

Referring to the scheme of Representative Lindbergh, of Minnesota (who is a native of Sweden) to abolish the United States Senate and the office of Vice President, the New Orleans Picayune says: "Representative Berger, the Socialist member from Wisconsin, who has already offered a resolution to abolish the United States Senate, is a foreigner, born in Austria-Hungary. Thus it is that the foreigners, who are gradually taking charge of the country, will teach the ignorant and Barbarian Americans what sort of a governmental system they should have."

Hon. Sereno E. Payne, who agrees with many opponents of the free sugar bill that it is in the interests of the "sugar trust," says: "The most foolish thing I have seen yet, is this Democratic notion that you can give the people cheaper sugar by making sugar free. Every scrap of expert testimony before the Ways and Means Committee went to show that the only effect of free sugar would be to increase the price. I would predict that two years after the operation of the Democratic free sugar bill, sugar would be two cents a pound higher than it is now."

The San Francisco Chronicle well says that the surest way to get cheap sugar is to encourage the beet sugar industry.

One of the new Democratic United States senators from Arizona, Henry F. Ashurst, who is a "Progressive Democrat," showed the quality of his statesmanship when after his election he made a speech in which he severely criticised the Senate and the courts, and threatened to put up all kinds of drastic measures to Congress.

The New York Journal of Commerce says truly that public sentiment in this country is losing sympathy for labor organizations and growing impatient of strikes which interrupt important industries, interfere with transportation and disturb business. It is no longer simply a matter of disagreement between particular employers and their workmen; other rights and wrongs than theirs are involved, affecting a vastly greater number of people. It believes that sooner or later organizations which are not consistent with the rights and safety of the community will be made subservient to law.

Returning from Washington Tuesday to attend a conference at Lexington, Dr. J. N. McCormack, president of the State Board of

Health, announced that the Department

of Agriculture at Washington, the Department of Agriculture of Kentucky, the

Live Stock Sanitary Board and the State Board of Health of Kentucky are planning to make the territory in Kentucky from Louisville to Mt. Sterling, and the Ohio River to the mountains, the Blue Grass section of the State, the greatest dairy producing section in America.

In accomplishing this work the State Board will have the assistance of the National Board as the National Department of Agriculture has promised to send to this State a number of its veterinarians to inspect the dairy herds of cattle. The examination of the dairy herds would be put under the Live Stock Sanitary Board as the result of a conference to be held at Lexington.

Think of the possibilities of the millions of acres of blue grass pastures, all devoted to the most modern dairy farms and the breeding of high-class cattle and dairy products?

Foolish Philosophy.

Before I die I hope to see a house with an oak finish upstairs. Many of the better houses have an oak finish downstairs, but I have never seen one with an oak finish upstairs.

Every man who has strong, worthy qualities comes to the front; but many of the best women are buried in homes, and are never heard of.

We are all compelled to do a great deal of marching, but the victorious soldier has an easier time of it than the soldier smarting from defeat.

A great deal goes on the people never hear of until the explosion comes.—Ed Howe.

When a man is accused of a sensational offense, he tells reporters that when the proper time comes he will talk in a manner that will cause everybody to sit up and take notice, and the guilty to take to the woods, but usually when the proper time comes, all he says is not guilty.

A SUCCESS.

"Was her bridge what party a success?"
"Yes, indeed. The woman she wanted to win got the prize."

Postponement Costly
Baseball postponements due to rain, have cost the big league clubs nearly \$200,000 thus far this season.

Figuring on an average attendance of 6,000, the 48 unplayed games mean that the clubs are shy receipts from 312,000 persons or \$200,000.

Confederates Accept Invitation of Grand Army to Join in Big Gettysburg Observance

MAON, Ga., May 28.—The United Confederate Veterans, in annual reunion here today, accepted an invitation to join with the Grand Army of the Republic in the centennial in 1913 celebration of the battle of Gettysburg. The invitation came in a letter from General Timble, Commander-in-Chief of G. A. R.

Other features of the day were the selection of Chattanooga, Tenn., as the next convention city and the crowning of Miss Mary Scandrett, queen of the reunion, before a crowd of 20,000 persons assembled on Colman's Hill. The big features of the reunion will take place tomorrow when a Commander-in-Chief will be elected and the veterans will march in their annual parade. Colonel Bennett H. Young of Louisville, Ky., will probably be elected to fill the place of the late General George W. Gordon.

A WOMAN'S GOOD LOOKS

Depend on her general health and freedom from pain. Many a woman looks old before her time because of these irregularities, which are essentially feminine. Starting from early womanhood, she suffers from frequently recurring derangements that upset her womanly health. If she be beautiful she grows into that mellow age without wrinkles and crowfoot about the eyes or the blue circles underneath. It is invariably the rule that such women suffer little, or not at all, from womanly derangements which sap the health and leave in the face the tell-tale story of pain and suffering. Dr. R. V. Pierce, the famous specialist in the diseases of women, found a prescription in his early practice that soothed the organism peculiar to womanhood—oiled the machinery, as it were, of the human system—and helped the woman to pass those painful periods that scar-lined and aged her face. This remedy became the well-known Dr. Pierce's Favorite Prescription, that has benefited thousands of women and saved them from misery and suffering at different periods in life.

Mrs. HANNEY E. PIERCE, of 241 Bright Street, Sarnia, Ont., writes: "I am now a well woman after suffering for three years and doctoring with several different doctors, each one saying it was something different. Starting from early womanhood, she suffers from frequently recurring derangements that upset her womanly health. If she be beautiful she grows into that mellow age without wrinkles and crowfoot about the eyes or the blue circles underneath. WHEN WOMEN ARE PALE

Health Glow Better Than Rouge

Women are pale and feel compelled to resort to cosmetics to give their complexion a "natural" color will be pleased to know a better way.

Pallor is caused by poor, thin blood—nothing else. If your blood is as rich and red as it ought to be, the skin will have that rosy hue of health so much desired.

Miss Clara Wohlers of Brooklyn, says "My blood became thin and poor last spring, making me pale and nervous. I had heard that Vinol was a splendid thing for the condition so I began using it and received great benefit. It has restored my healthy color and made me feel well again. Vinol is an excellent tonic."

We say positively that there is nothing like Vinol to enrich and purify the blood, and build up weak, rundown people. The taste is delicious and even children like to take it.

You can use Vinol without any risk for we guarantee it to be satisfactory and pay back your money if it is not. J. C. Pecor, Drug-gist, Mayville, Ky.
